ATEC® Series 7

For long-term
system maintenance

The world's largest library

sphera.com

ATEC® for your systems' maintenance

Our Test Bench increases your fleet availability

- Test several generations and several types of equipment
- Failure identification and location of equipment
- Conformity check after repair
- Optimise spare stocks
- Reduce your carbon footprint with logistic flows' management
- Improved ergonomics (user-friendly software interface, simplified maintenance)
- Enhances self-tests (fault detection and localisation)
- Onboard connectivity : Remote operation

GENERIC : The most extensive Test Program libraries in the world

- Available TPS* (Test Program Set) : more than 1 700 LRU Numbers covered
- Compatible with ATEC Series 6 TPS
- All Airbus & Boeing fleets are covered by our TPS

SUSTAINABLE : Long-Term Test bench & program maintenance for your system's complete life cycle

MODULAR

Adaptation of the capabilities of your test bench according to your needs.

OPTICS

RADIO

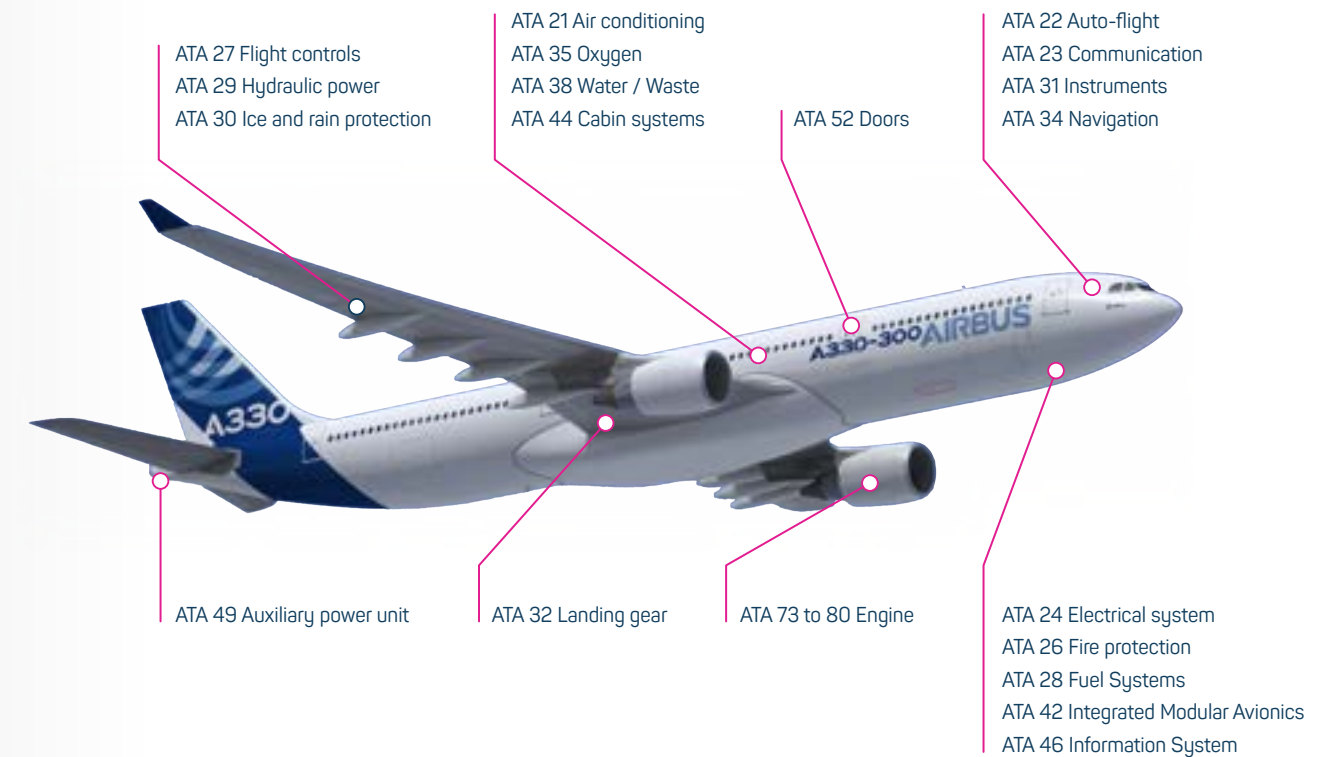

PRESURE

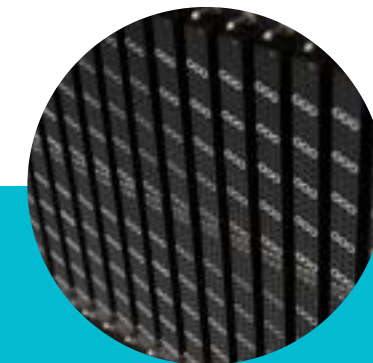

POWER

OTHER
REQUIREMENTS

PXI AND LXI BASED ARCHITECTURE

NEW SWITCHING UNIT !

- Modular architecture
- Up to 3600 test points
- Integrated FPGA module
- RoHS2 compliant

POWERED BY FEATS

- Environment friendly
- Ready for next aircraft generation
- Compatible with ATEC Series 6 TPS
- New System Software : FEATS

Join the ATEC® community

Throughout the ATEC® lifecycle, SPHEREA supports you, ensuring that your equipment is optimised and reliable. More than **600 customers** in over **50 countries** and over 700 test benches currently in service.
