

# OLISE® Laser

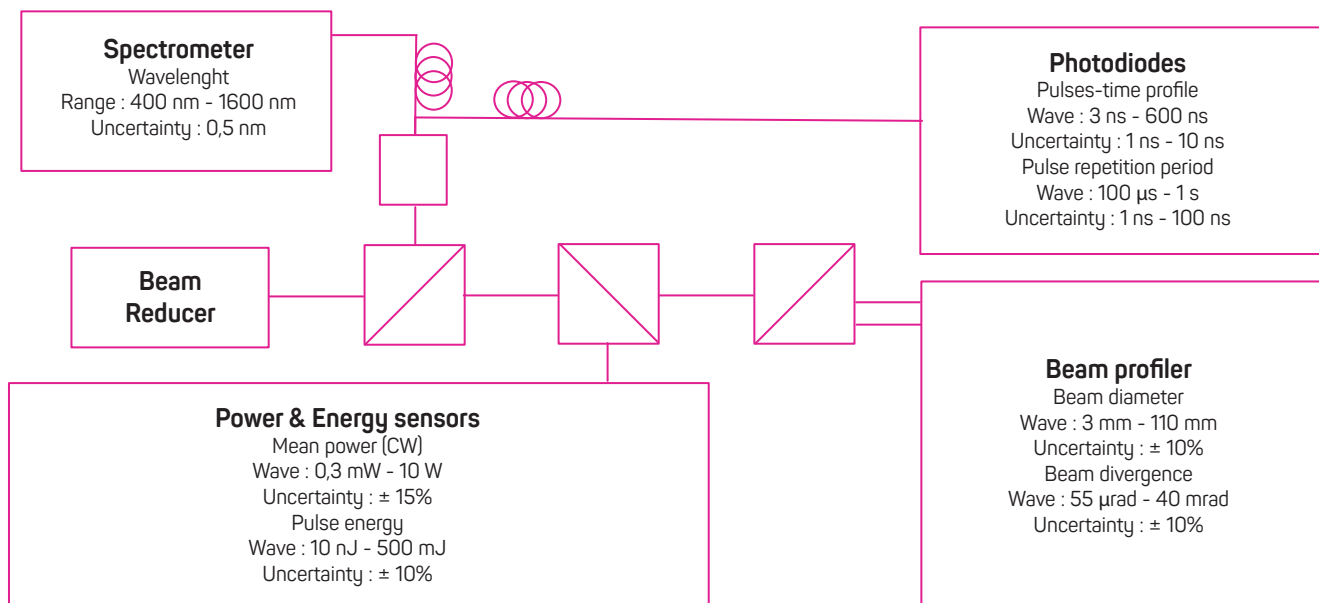

COMPREHENSIVE FIELD TESTING FOR  
MULTIPLE LASER TYPES

Discover OLISE® Laser, the ultimate field-testing tool for the analysis and characterisation of a wide range of laser types, including designators, pointers, illuminators, and rangefinders.

Our innovative technology ensures accurate and reliable performance assessments, providing critical insights for optimal laser operation.

## MEASUREMENT PERFORMANCES

## USE CASES

- > For maintenance purpose
- > Checking the specification
- > Longevity assessment

## ADVANTAGES

- > Outdoors use : temperature : 0 - 40 °C
- > Transportable testing bench quick & easy to install
- > Simple GUI to configurate and use the test system
- > Alignment on beams : Height from the ground 0,4 to 4,5 m  
Horizontal angle -10° to 45°
