

WIZE®

MADE IN
FRANCE

VERSATILE AND SCALABLE, FROM MANUFACTURING TO INSTALLATION

WIZE is a complete range of cable testers. Equally suitable for production and maintenance, WIZE® is designed for testing simple cables as well as complex interconnection systems.

Available in three versions: Test bench, portable or rugged.

WHY CHOOSE WIZE

> Easy maintenance

Easy maintenance via built-in self-test and replacement of faulty sub-assemblies.

> Scalability and modularity

Through the addition of test points, test functions, or features after purchase.

> Automatic test program generation

Through self-learning or from competitor product programs.

APPLICATION FIELDS

> Testing in the aerospace, space, railway, and defence sectors, or any other industry using cabling.

FEATURES

- > From 64 to 65,000 test points (low-voltage continuity, non-continuity and localization)
- > High-voltage insulation up to 6,000 V.
- > Rapid localisation of insulation defects.
- > Low capacitance measurements.
- > Functional test and characterization of resistors, capacitors and diodes.
- > Manual or automatic operation intuitive human-machine interface.
